Subject: Re:...MVCI Energy Services Inc.... Contaminated Water from the Gold King Mine

EPA is committed to working closely with response agencies and state and local officials to ensure the safety of citizens, respond to concerns and to evaluate impact to water contaminated by the Gold King Mine Release. EPA is sharing information as quickly as possible with the public as experts work to evaluate any effects the spill may have on drinking water, public health, agriculture, fish and wildlife.

Please see our website for the latest information: <http://www2.epa.gov/goldkingmine>

Regular updates will be posted as they are available.

MVCI Energy Services Inc. is an locally/employee owned company in Farmington, New Mexico that too has the Animas River flowing through it. We have the capability of treating the contaminated water that is currently being pulled from the Animas River for drinking purposes. We would like the opportunity to visit with you about options in regards to treating the water.

Chuck Banks
